

THIS MEETING OF

MEMBERS AT

1

Recognises the sacrifices that so many working people have made during the COVID 19 pandemic.

We express our gratitude and admiration for all working people who have been on the front line as essential workers.

2

Working people have made many sacrifices including lost pay, hours, and jobs. Many have been forced to use their superannuation just to make ends meet.

But it has also been working people who were called upon to be on the frontlines and to keep Australia going. Workers are the hidden heroes of the pandemic.

We call on state and federal Governments to support us and our communities with a worker-centred recovery plan that:

- **Creates secure jobs**
- **Guarantees good wages**
- **Invests more in public services**

We resolve to send this message to our local members and the Premier.
